DESCRIPTION

This tract is estimated to be approximately 90.8 acres with frontage along CR 4221. It is densely wooded with mature plantation Pine with the occasional large homestead Oak found scattered throughout. The tract has rolling terrain with elevation ranging from an approximate low of 390' ASL to an approximate high of 450' ASL. The combination of these features as well as the close proximity to Lake Palestine and the City of Tyler make this a unique tract for homesite development. A buy and hold plan could implement timber management with future harvest income and still hold value as a very desirable home-site tract with some commercial potential.
