DESCRIPTION

Owners built this home for privacy and never planned to leave. Tucked into a private, nature-filled setting, this one-owner custom home was designed specifically for its lot, with peaceful views and a backyard that feels like a retreat. The pool and built-in spa are surrounded by greenery, creating a quiet escape that's just as inviting for morning coffee as it is for evening gatherings. Inside, the kitchen is a true centerpiece—built for someone who actually cooks. A Garland professional gas range, Sub-Zero refrigerator, two sinks, two pantries, and a temperature-controlled wine cellar make this space as functional as it is impressive. The dining room, living room with fireplace and built-ins and kitchen all look over the beautiful private backyard. The main level offers everyday comfort, with the first-floor primary suite secluded from the main living areas. It features a cedar closet, a spacious walk-in closet, and a large primary bath with a separate whirlpool tub and tiled shower. A second bedroom with close access to a full bath, along with an additional powder room, completes the main floor. Upstairs adds two more bedrooms, a shared bath, a built-in office with its own balcony, a large family room with deck access, and a dedicated media room. There's even a hidden safe room or storage space—out of sight, but ready when needed. An oversized three-car garage, plus a separate golf-cart bay with a sink, completes the home. This isn't just luxury—it's privacy, intention, and a home that lives beautifully.
