The primary is on the opposite side of the home, so everyone has good personal space. Soaring ceilings and lots of windows offer loads of natural light. Beautiful corner fireplace is naturally the center point of the family room and makes for a grand entrance. Chefs eat-in kitchen with GAS cooking, walk-in pantry, lots of cabinets, granite and stainless appliances. Nice open views all across the back of the home. Gorgeous staircase leading up to the second level with 2 additional bedrooms and a jack n Jill bath. The second living area upstairs has a built in wet bar and there is also a real media room that is so flexible. It could be a pool room, exercise room or man cave. Out back is a covered patio with a great cooking area and grill. You can see the custom quality through out, especially the lovely real wood floors.
