DESCRIPTION

Be sure to watch the video of this incredible gorgeous property at www.4813Hughes.Com. In a market where true differentiation is rare, this 2018-built residence in a quiet Flower Mound cul-de-sac stands apart. Designed for both daily livability and elevated entertaining, the home offers a level of backyard privacy and amenity that is seldom found under \$2M. Beyond the gated porte-cochère, a private motor court introduces the four-car configuration, with the fourth bay currently styled as an entertaining lounge with bar — easily converted back to traditional garage use if desired. The main level balances openness with purpose. A private study sits behind French doors, while a full downstairs guest suite provides comfort for multigenerational living. The two-story great room creates scale and light without sacrificing warmth. The kitchen anchors the home with built-in refrigeration, gas cooking, generous cabinetry, and seamless access to the covered patio — a layout designed to function as beautifully as it presents. A dedicated full pool bath and oversized utility room reinforce the thoughtful planning throughout. Upstairs, three secondary bedrooms each feature private en-suite baths — a detail often reserved for significantly higher price points. A true media room and a separate game room with wet bar provide distinct gathering spaces, while the covered balcony extends living outward with neighborhood views. The backyard is where this property truly distinguishes itself. A diving pool that is BOTH heated AND chilled anchors the space, surrounded by mature landscaping that creates meaningful privacy. The cabana — complete with built-in grill and stone fireplace — allows for year-round outdoor living, while the hardscape accommodates both lounge seating and dining without sacrificing green space.
