## DESCRIPTION

Located in Prestonwood, one of the most sought-after communities in Far North Dallas, this stunning home has been meticulously rethought and updated with intentional improvements that elevate it both aesthetically and functionally. Updated landscaping and planting beds enhance multiple outdoor terraces; gated courtyard entry is a winning way to welcome guests. A comprehensive high-end remodel expanded the kitchen and created an open-concept gathering space that's ideal for both everyday living and special occasion entertaining. The kitchen has been further enhanced with new cabinetry and countertops plus upgraded chef's-quality appliances. Hardwood flooring installed throughout the home warmed up the interiors and provided continuity from room to room. Bathrooms were also updated during the renovation, including a reconfigured primary en suite bath with soaking tub. The primary bedroom's former sitting area was converted into a custom walk-in closet with built-in organizational features and convenient pocket door. Here, newly installed French doors lead to a private terrace, perfect for morning coffee or evening nightcap. Subsequent updates are designed for peace of mind, with major system improvements including new attic insulation; upgraded water heaters with instant hot water recirculating pumps; replacement of all opening windows and the main sliding door with Anderson 100 Series; new gas fireplace insert with remote control; new 200-amp electric panel; EV charger in the garage. Additional updates make maintenance easy, including an epoxy-coated garage floor. Be prepared for the unexpected: safety and security is provided with freestanding tri-fuel generator, transfer-switch ready with electric start generator in backyard and generator bypass plug installed. If you're looking for a home that's refined and ready, where the heavy lifting of renovation has already been done, this is the one.
