DESCRIPTION

This one feels different the moment you pull up. Sitting on 2.93 acres of lush, wide open land, this custom 2022 build is the kind of home that just hits you. It is bold, it is beautiful, and it was done right from the start. With 2,396 square feet, 4 bedrooms, and 3.1 bathrooms, it brings the perfect balance of luxury and comfort without ever feeling overdone. Walk inside and you can feel it. The space, the light, the way everything flows. The living room draws you in with a gas log fireplace that makes the whole space feel warm and grounded, while still keeping that elevated, custom feel. And the kitchen... this is where it really comes to life. Completely customized, designed to stand out, and built for gathering. Whether it is slow mornings, busy weeknights, or hosting a full house, this space holds it all and does it beautifully. The primary suite gives you that quiet place to land at the end of the day, and the additional bedrooms give you room to grow, host, or create whatever you need. Every part of this home feels intentional, not just built, but thought through. Step outside and it just keeps getting better. The backyard is everything you want it to be. A pool ready for long summer days, space to spread out, and land that feels full and alive. This property is lush in the best way, the kind you do not come across often. And then you have the 30x30 shop. Electricity, 15 ft overhang, 20 ft carport. It is ready for whatever you need it to be, work, hobbies, storage, or all of the above. This is not just another listing. This is the kind of home people wait for. And when it shows up... you go.
