DESCRIPTION

Situated on a desirable corner lot, this well-maintained home delivers the perfect blend of space, functionality, and standout outdoor living. The backyard is truly the highlight, featuring a sparkling pool and spa, covered patio, and pergola seating area, creating an ideal setup for entertaining or relaxing year-round. Inside, the home offers a spacious and functional layout with abundant natural light and generously sized rooms. The primary suite features an updated shower, adding a modern touch while maintaining the home's overall comfort and livability. Major improvements provide added peace of mind, including foundation work completed in 2025 with a transferable lifetime warranty, plumbing repairs and clean-outs (2025), window replacements with transferable warranty (2023), and electrical updates (service work), demonstrating a strong level of care and maintenance over time. With solid bones and a move in ready feel, this home presents an excellent opportunity for buyers looking to enjoy immediately while adding their own personal touches over time. The outdoor space alone offers significant value, replicating a pool and covered patio setup like this today would come at a substantial cost. Conveniently located with easy access to major roads, shopping, and dining. Backyards like this, paired with major system updates, rarely come available at this price point.
