DESCRIPTION

Architectural ceiling details, exposed beams, and completed upgrades throughout immediately set this Highland Homes build from 2025 apart, offering over 3,200 square feet with a level of finish already in place. Set within Saddle Star Estates with access to community pool and clubhouse, the home carries a consistent level of detail from entry through the main living spaces. The entry features a shiplap ceiling with crown moulding, leading into main living areas where extended hardwood flooring and double crown create a clean, finished look. The layout brings natural light across its open space, with coordinated paint colors adding atmosphere and floor outlets in the living room. The kitchen is a central focal point, framed by exposed beams that add depth overhead. A large island anchors the space, paired with quartz countertops, farmhouse sink, double ovens, and a five burner gas range. Smart appliances connect through Wi Fi, and gold hardware is carried across all cabinetry. The primary suite includes hardwood flooring and a bay window sitting area. The primary bathroom features a freestanding tub, walk in shower and separate vanity. The closet is fully built out with a California Closets system, featuring soft close drawers, integrated storage, dual pull out valets, dedicated tie and belt storage, built in shoe racks with display rails, and a built in hamper. The study includes built in bookshelves, and a guest suite offers a private en suite bath. The home includes a three car tandem garage, offering added space for storage, parking, or workspace. Window treatments are installed throughout, with shutters on front windows and motorized blinds on the remaining windows. The covered patio provides a large outdoor living space with a natural gas connection already in place for grilling or future outdoor kitchen. The level of finish, layout, and completed upgrades set this home apart in a way that becomes clear the moment you step inside.
