DESCRIPTION

Located in the DeSoto High School district with quick access to major highways, shopping, and daily essentials, this home checks the boxes most buyers are still searching for with interior space, storage shed and water softener system. Step inside to an open-concept layout flooded with natural light, where high ceilings and a seamless kitchen-to-living flow create a space that feels both elevated and easy to live in. Whether you're hosting or unwinding, the layout simply works. The split-bedroom design gives you the privacy most homes lack—featuring a tucked-away primary suite with an enclosed bath, while secondary bedrooms sit on the opposite side for separation and flexibility. What truly sets this home apart is how it supports real life: Laundry room connected to the garage (no mess tracked through the house) Surround sound inside & out for everyday enjoyment or entertaining Water softener system already in place Outdoor storage shed for added space without sacrificing the garage This isn't just a home that looks good—it's a home that's been lived in the right way, designed for comfort, flow, and convenience. Homes with this layout, location, and level of functionality don't last long—especially at this value. Schedule your showing before someone else sees what you see.
